

**Verein zur Unterstützung indianischer Jugend-, Kultur- und Menschenrechtsprojekte
und Leonard Peltier Support Group RheinMain Germany**

Seligenstadt/Germany, February 12th, 2020

Solidarity Adress

We, as a German Support Group for indigenous youth-, cultural- and human right projects and Leonard Peltier Support Group, want to express our solidarity with our indigenous brothers and sisters and all other protectors and resisters in the struggle against the Coastal GasLine Pipeline. The pipeline is violating indigenous rights and sovereignty as well the environmental system. In context of those projects in the past indigenous girls and women were attacked by male workers from man camps. Sexual harassing and sexual violence are on the daily agenda. As human right activists and also environmental activists we protest against the pipeline construction, the police violence and the ongoing colonialization of indigenous people by the Canadian Government. No pipelines, no man camps, no police terror: protect Mother Earth and Indigenous Rights.

For the board of directors:

Dr. Michael Koch
