

On 6.2.2023, Peltiers 47th year of imprisonment ends and what seemed incredible to us, his 48th year of imprisonment begins. For almost half of this time of screaming injustice, our group has been engaged in the fight for Peltiers freedom. For the last two years, we have been aiming at the development and expansion of Europe-wide actions, e.g. on the occasion of this anniversary. Enclosed is the action calendar as of 1.2.2023:
